_____ is a student member of the Society of Hispanics in Science and Engineering (SHSE) and will be attending the upcoming career and professional development conference, SHPE 2009, which will be hosted in Washington DC from October 28th to November 1st. The members attending these conferences will participate in various career, leadership, and professional development workshops and will have the opportunity to seek employment in one of the nation's largest engineering career fair. Due to the student's participation in these events, he/she will not be able to attend classes during the periods mentioned above. As the advisor of SHSE, I am asking you to please give the student any homework in advance and/or make accommodations to any exam they will miss.

Please feel free to contact me if you have any further questions.

Thank you very much.

Dr. Hany J. Farran. Ph.D.
SHSE Academic Advisor
Professor, Dept. Civil Engineering
